

SABCONS Promotes Excellence in Project Management

The dictionary defines Excellence as the state of surpassing others and being superior to them in a particular respect or area. At SABCONS Project Management Training & Consulting, we could not agree more! We believe that simply excelling in executing projects in the most efficient way, within time and budget, is not enough. It's the desire to continuously be in the forefront of every aspect of project execution that defines excellence. SABCONS moots the idea of promoting excellence in Project Management by offering a platform for high performing Project Managers and their teams to showcase their projects and compete against peers.

SABCONS will soon invite participation from all Project Managers to submit their best projects for a competition in an open forum. The submitted projects will be evaluated by a panel of experts.

Entries will be evaluated in the following categories:

- Best Project
- Best Team
- Best Project Manager

N.B.: Project Managers having PgMP /PMP / CAPM certification will only be eligible to apply. This contest is open to all Projects across India.
