For PgMP credential holders:

If you hold the PgMP, you can maintain both credentials by accruing and reporting 60 Professional Development Units (PDUs) within your three-year cycle. Select one of the following options if you hold the PgMP.

- Option A** – PMP credential and PgMP credential will share PDUs going forward. Any PDUs earned for the PgMP prior to obtaining the PMP will be forfeited. The PgMP renewal date will be set equal to the newly-acquired PMP renewal cycle.
- Option B** – PMP credential and PgMP credential will share PDUs including those earned for the PgMP before obtaining the PMP and any PDUs earned after receiving the PMP. The PMP renewal date will be set equal to the existing PgMP renewal date. Therefore, renewal of the PMP credential will need to occur with the renewal of the PgMP credential.

EXAMPLE OF UNIQUE NON-OVERLAPPING MONTHS

Calculating professional project management experience:

Each month in which you worked on multiple, overlapping projects is to count as one month toward the total months of unique, non-overlapping professional project management experience.

In this example, the project manager worked on Project 1 and Project 2 simultaneously February–April. The time spent on both projects counts as three, not six, months toward the total to fulfill the professional project management experience requirement.

Experience Verification Form - Part II

For each project, please list by each of the five Process Groups, the number of hours you have spent leading and directing projects. This will count toward the hours of experience needed for the eligibility requirement. Remember to record the project number that corresponds with the project documented in Part I of the Experience Verification Form.
