

S-AgileLaunch

S-AgileLaunch is a unique consulting service specially designed for the organizations stepping into the Agile World. AgileLaunch is a highly personalized service that provides exclusive solutions using a proven framework to launch Agile in the most efficient and effective manner to deliver the greatest possible value to your organization.

Objective: Organizations new to Agile or adopting Agile practices for the first time will go through enormous challenges in terms of choosing the right approach, right people, right tools and the right techniques. While it is true that Agile brings substantial improvement and tangible benefits to the success of the projects and the cohesiveness of teams, it is imperative that it should be adopted in the right manner for smooth transitioning and best possible results. Organizations can benefit tremendously from the expertise and guidance of our experienced Agile experts and thought leaders.

Benefits include:

- End-to-end handholding to launch Agile
- Define a framework unique to your organization's needs
- Expert guidance for the first-time Agile teams/projects
- Customized support for overcoming challenges during transition and early phases of Agile adoption.

S-AgilePropel

S-AgilePropel is a unique consulting service to the organizations that are working on taking Agile adoption to the next level – Enterprise Agility. This service will take your organization through a series of strategic steps to successfully address the organizational, cultural, and technical challenges on your way to Enterprise Agility.

Objective: Organizations that have select teams / projects adopting Agile will face challenges when they attempt to scale it up in their organization. Achieving Enterprise Agility is much more ambitious and challenging than deploying Agile methodologies and practices in isolated teams. It can lead to enterprise-level challenges that need to be overcome skillfully and adequately. Experienced Agile professionals will tell you that there is no off-the-shelf solution to address the associated problems in achieving Enterprise Agility. Organizations can therefore benefit greatly from the knowledge and guidance of our experienced Enterprise Agility experts and thought leaders.

Benefits include:

- A thorough assessment of Agility "As-Is" and the plan "To-Be"
- Definition of an Enterprise Agility Model unique to your organization's requirements.
- Help build high performance Agile teams
- Help succeed in Distributed Agile Delivery

S-AgileTranscend

S-AgileTranscend is a unique consulting service to organizations to develop in-house Agile expertise for knowledge creation to lead the way in their journey for Agile adoption at all levels. Through this service, organizations can also build systems to measure Agile maturity.

Objective: Organizations look forward to going beyond their existing Agile boundaries and creating a culture conducive to Agile excellence, creativity, innovation and enabling Agile leaders to emerge. Building an Agile Identity at the enterprise-level and developing Agile expert trainers for knowledge management and retention are important milestones for any Agile organizations. The AgileTranscend Program is specially designed precisely for these services.

Benefits include:

- Training and Development of Agile trainers (ToT) and Scrum Masters
- Organization-specific Agile Maturity Roadmap
- Help build Agile Centre of Excellence / Agile PMOs
